Positive Paths

Positive Paths is a non-profit organization that promotes the advancement of women in our communities by providing mentorship, scholarships, and supportive services.

Women are often trying to master the balance of professional advancement and caregiving for their family. Circumstances such as poverty, domestic violence, extreme challenges with children, death or illness of a spouse are prevalent in far too many women's lives. Positive Paths exists to support women in need, in the communities that we serve, by providing a life-bridge to economic stability, personal growth and professional achievement. We do this through post-secondary scholarships with individual mentors, mentoring and professional development events, and supportive services. Positive Paths walks with women on their "positive path" to empowerment and success.

Positive Paths has assisted **more than 120 amazing women** through our signature Scholarship and Mentoring Program. This support has changed their lives, and the future of their children. Our scholars and mentees are becoming nurses, doctors, lawyers, engineers, teachers and contributing members of our communities. These women are grateful that someone believes in them and will assist and support them as they help themselves and their families.

Our fundraising efforts allow us to provide scholarships for education and training programs, and support the coordination of our mentoring programs. All of our mentors are volunteers, donating their time and expertise to assist our scholars and mentees. We collaborate with several nonprofit organizations that assist women in other ways. We do not duplicate resources or compete with existing services — rather we contribute to the Valley's collective network of community support.

Through your generosity, the funds raised at our annual gala allow us to continue to support women. We believe that when you assist women, you help entire families and strengthen communities.

Thank you in advance for your consideration.
